

I wish the FCC would stop meddling in what is being broadcast. I think any radio station should be allowed to broadcast as they see fit. As a matter of fact I decided to pay \$10.00 a month for the privilege of listening to what I want. Every radio has a dial. If a Howard Stern offends you, or If you don't like what is broadcast on one station, you switch to another, either XM, AM, FM. As a matter of fact, I think they should dissolve the FCC which serves no purpose whatsoever. Think of all the money saved. If I need a watchdog, I'll go out and get one.
